Owl Buck Assembly

Article by: Maya Lopez, 4th

During the owl buck assembly the 5th graders did a cool play about teamwork. They worked really hard on it. They held up signs and did a skit about group work.

Straw Rockets

Article by: Luella Whipkey, 4th

In fourth grade Ms. Winters class, we are learning about cause and effect. We are testing an experiment to see if we can find out why cause and effect happens. We made the rockets out of paper and put the rocket on the straw and blow into the straw. We are measuring the length of how far it goes.

The 7 Continents

Article by: Lillian Piotrowski, 4th

Photo by: Luella Whipkey, 4th

We are learning about continents in science class. There is North and South America, Asia, Africa, Antarctica, Europe and Australia. Those are all the continents.

Division Facts Leaderboard

Article by: Madison Hirschfelt, 5

Photo by: Madison Hirschfelt, 5

In fifth grade, Mrs. Shirkey's class, all of the students are trying to be in 1st, 2nd, 3rd, 4th and 5th on the Division Facts Leaderboard. Mallory T., Asa B., and Jack L. are all fighting for first place. Who will win?

Pep Assembly

Article by: Maria Fulco, 4th gr.

Photo by: Maria Fulco, 4th

We had a pep assembly and at the assembly and they introduced the football players and cheerleaders. It was spirit week, everyone had their blue and white on. There was a big homecoming game it was really cool.

Cookie Mining

Article by: Caleigh Berney, 5th

Photo by: Trinity Curtis, 5th

In Ms. Shirkey's 5th grade class, we are doing a cookie experiment. We have to mine chocolate chips (aka) gold. We had to try not to break the cookie (aka) the earth. Each chocolate chip is worth \$1,000. The table with the most money got two cookies. This was really fun.
